

Background to the Nurse (RGN/RMN) posts

Simeon Care is a therapeutic home and community for 23 older people registered to provide nursing and residential care. Simeon is quite unlike any nursing home you may have worked in or visited. Our deliberately informal approach encourages social interaction, rehabilitation, well-being and safety. It means nurses have time to get to know and understand the person and deliver a range of treatments and interventions. The Care Inspectorate rate us as very good across all areas.

Simeon actively supports professional and personal development through on-going training opportunities and skills development. We are looking for nurses who are keen to develop their career and give the very best of themselves to their vocation.

About Simeon - A Home and Community

Simeon Care for the Elderly was founded in 1984, and Simeon is one of six independent Camphill Charities in the Aberdeen area. Simeon is committed to providing a 'home for life' to its residents, standing by our motto, "May you live all the days of your life", supporting residents to enjoy a meaningful activities and relationships.

We moved into our new and beautiful purpose built care home in September 2015.

Our new home is a joy to work in, and a great place for older people to live. A great deal of planning has gone into creating a homely environment combined with best practice in dementia design, including beautiful and fully accessible outdoor spaces.

Simeon is part of the international Camphill Movement for social renewal through community living. Simeon includes resident co-workers who live and work together on site, including the nurse manager. In addition there are up to eight volunteer co-workers from all over the world who come for one year to learn about Camphill's philosophy of care. Simeon employs over thirty people in the care, housekeeping, kitchen and garden teams. Together, and with our residents, we strive to create a mutually supportive environment where we can share our gifts and talents to enjoy a sense of purpose and achievement.
